5 Exxon Mobil UK Sector

Beryl Alpha –

Under deck Suspended scaffold and Flare maintenance.

6 Total Frigg field platforms, CDP1, TP1, TCP2.

Alustar scaffold used during the whole lifecycle from Maintenance and Modifications, and Decommissioning.

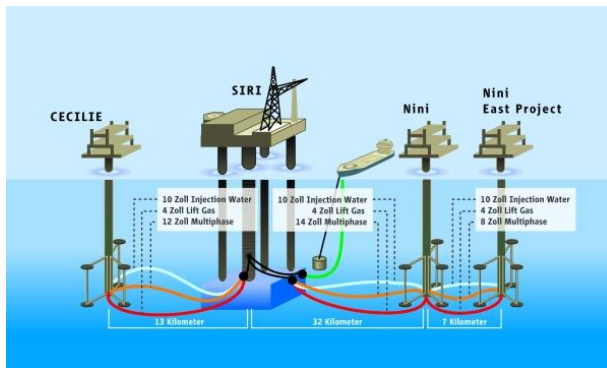

Alustar Aluminium System Scaffold - Project References –May 2012

7 Total UK sector

**MCP01 –
Decommissioning.**

8 Statoil/Dong – Siri field Danish sector

Maintenance and Modifications on the Siri field.

Installation of new modules.

9 Amerada Hess – Danish sector

South Arne field.

Installation of new modules.

Maintenance and Modifications on the Siri field.

Alustar Aluminium System Scaffold - Project References –May 2012

10 BP – Norwegian sector

Skarv FPSO

Installation of new modules.

Maintenance and Modifications.

11 BP – UK sector

Schiallion and Harding.

Maintenance and Modifications.

Installation of new modules.

12 Shell Exploration UK Sector

Brent C.

Maintenance and Modifications.

Installation of new modules.

Alustar Aluminium System Scaffold - Project References –May 2012

13 Aker Kvaerner/Boeing Canada/USA

Sea Launch

Total Renovations & Maintenance and Modifications.

Installation of new modules.

14 Norisol – Scaffolding contractor

App. 1000 tons of Alustar Aluminium Scaffold.

Various on- and offshore projects. Installation of new modules. Hook-ups, Maintenance and Modifications, and Decommissioning.

15 Kvaerner Verdal

Kvaerner Yard has 1000 tons of Alustar Aluminium Scaffold.

Hook-up, Maintenance and Modifications, Decommissioning.

Production of Jack-Ups, Platform modules and windmills.

Installation new modules.

Alustar Aluminium System Scaffold - Project References –May 2012

16 Statoil Mongstad Refinery

During the years many Shut-downs, Maintenance and Modifications, New production facilities, CO2 capture project and installation of New modules.

17 Statoil Kollsnes Gas terminal

During the years many Shut-downs, Maintenance and Modifications, New production facilities, and installation of New modules.

18 Master Solution Scaffold contractor

App. 1000 tons of Alustar Aluminium Scaffold

Various on- and offshore projects included bridges and buildings with support system.

Hook-ups, Maintenance and Modifications, and Decommissioning.

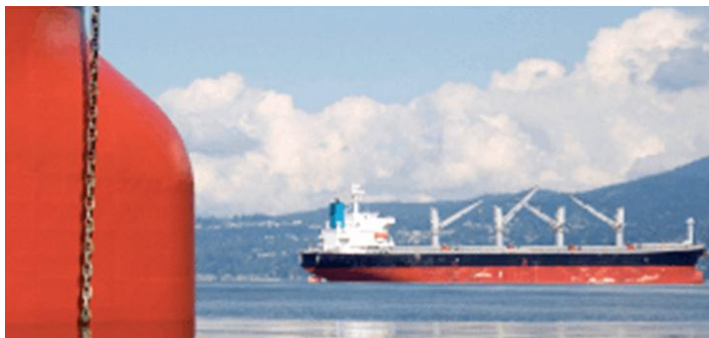

19 Skanska/UCO - Statoil New office in Oslo

Complex construction and building.

Needed special Scaffold Engineering and Design

20 TECO Maritime

TECO Maritime is a specialist supplier of competence based technical services to the maritime industry.

Various projects for maintenance of rigs, FPSOs and ship in Norway, UK, Netherland and France.

21 Semco Maritime

Various project for maintenance and modifications of rigs, FPSOs and ship in Norway, UK, Denmark.

Local stock of Alustar

22 Kruse Smith Apartments

3 Apartment tower buildings.

Combining Support work and façade scaffold.

23 NCC Contractors

Apartment buildings.

Combining Support work and façade scaffold.

24 Ramirent Contractors

New constructions and maintenance of Falconbridge.

Nickel refinery and sulphuric acid plant.

Combining Support work and façade scaffold.

Incineration plants in Hamar and Stavanger.

Combining Support work and façade scaffold inside tanks and columns.

26 Miras Nomaco AS Mongstad

CO2 Teknologi Senter Mongstad (TCM)

Combining Support work and façade scaffold inside tanks and columns.

Alustar Scaffold Staircase Tower 62,5m: "The strongest there is": Axial load for tower on single standard!

Miras Nomaco AS.

Staircase for Skanska on TCM

All scaffolding for Alstom on TCM.

Scaffolding for Promecon EVM project.

Scaffolding for DONG Energy på EVM Mongstad

Suspended scaffold on quays for NCC.

Support system for Kruse Smith/Aker on TCM.

Scaffolding for Voith on NOX project.

Bridge project in Sløvåg.

27 Statoil (Hydro) Ormen Lange Gas Terminal

The largest scaffolding project in Europe.

Combining Support work and façade scaffold in between complex structure and pipe lines.

Extensive wall and roof cover secure continuous work amongst other in winter seasons.

“The strongest there is”!

Alustar scaffold standard components used as heavy duty support work.

Alustar scaffold built as a fixed construction lifted by crane from floor to floor within atrium in new Rica hotel Sola.

Alustar stillas benyttes til ramme for habitat.

Habitat moduler i standard Alustar stillas bygges lett inn i komplekse moduler.
